

What is New in **CBSE**

The National Assessment Survey (2017-18) indicates the competency of CBSE students is above the national average

Ref: CP/CBSE/2019 April 29, 2019

Here is a list of the major decisions that are being conveyed to you in the hope that you will like to monitor the progress of your child in each of these areas:

1. Learning outcomes (for classes 1 to 8).

circular no. Acad11/2019 dated 6.3.19).

As parents you must keep yourself informed of the competencies that your child is supposed to acquire in each grade, in each subject. This will help you follow up on your child's progress on a daily basis and also know if the classroom transactions are focusing on these competencies and the school is making efforts for your child.

www.ncert.nic.in/departments/nie/dee/publication/print_material.html.

2. **Experiential Learning** is the theme for the new academic year 2019-20

With the aim of focusing the academic energies on developing the child's innate ability of learning to learn. It is expected the principal ensure that all teachers in their schools adopt it. Parents familiarize with this methodology at the PTMs or through discussions with your child, and give feedback to the school.

3. Art Education from classes I-X. A

(Circular no. Acad-12/2019 dated 8.3.19).

Art shall also be integrated with education, by using it as a tool for experiential learning. This has been done to enhance children's own ability to construct knowledge, and explore novel ways of learning. It is a clear departure from mechanical retrieval or so-called rote learning. Board recommends all forms of Art (visual and/or performing) in the form of education as well as integration.

4. Sports and physical Education

Circular no. Acad-10/2018 dated 21.3.18 and circular. no. Acad-16/2019 dated 9.3.19)

Board has made it compulsory for all schools to ensure one period of sports per day, for classes 1 to 12, from the academic session 2019-20.

6. The compendium of courses after +2

is the first of its kind effort of the Board to facilitate students and parents while scouting for right choices in traditional, popular and new age courses. The information is available on CBSE website www.cbse.nic.in.

8. Modified Assessment and Evaluation patterns.

(Circular no. Acad-11/2019, dated 6.3.19).

Almost all academic subjects already had 20 marks earmarked for school-based assessment in classes 10 and 12, except Mathematics, languages, political science and legal studies in class 12. These subjects too have been assigned 20 marks for the purpose of internal assessment in class XII from the academic year 2019-20. School based assessments have assumed greater significance for the Board exams from now on.

9. Two levels of examinations in Mathematics in secondary classes for the academic session ending March, 2020 onwards, for class X Board exams

FAQs at http://cbseacademic.nic.in/web_material/Circulars/2019/03_Circular_2019.pdf and http://cbseacademic.nic.in/web_material/Circulars/2019/03_CircularFAQ_2019.pdf.

The students can opt for either Maths Standard (present level of examination) or Maths Basic (easier level of examination). While the Classroom teaching and internal assessment for both the levels of examinations will be the same, it is at the time for registering for the Board's exams, that the child can choose any one of the levels. Parent's guidance will be crucial at this stage.

12. 'CBSE-Shiksha Vani' - has been launched.

This can be downloaded on Android Play Store. This podcast provides interesting information about the Board's activities and directions/guidelines from time to time, along with new tools and new ideas for education, for all stakeholders, including parents.
